Back In BALANCE—

by Trevor Berry, DC, DACNB

*Dealing with America's
Health Epidemic from a
Neurological Point of View*

 Focus

Key Clinical Takeaways:

- Introduction to brain based research.
- Mechanisms of neuro degeneration and disease.
- Economic impact of neurological conditions in America.
- Neuroprotective physiology including literature review.
- Condition specific neurology review applications for:
 - Dementia.
 - Alzheimer's disease.
- Basal Ganglia disorders (Parkinson's disease, hyperkinetic disorders).
- Acute brain injury and inflammation (Traumatic brain injury-acute phase and chronic, stroke, autoimmune).
- Using objective biomarkers for outcome assessments & documentation.
- Demonstrations of laser applications and summary.
- Lab testing and interpretation
- Nutrition protocols

Back In BALANCE—

Dealing with America's Health Epidemic from a Neurological Point of View

About the Seminar

The most important system of the human body is the nervous system, but it can be one of the most challenging to understand. Dr. Trevor Berry, a board-certified Chiropractic Neurologist and low-level laser expert, will explore its many connections to other parts of the body. He will discuss the generation of advanced treatments for many of the brain diseases that are greatly affecting our society and those he sees daily at his Chiropractic Neurology Center: Traumatic Brain Injury, Strokes, the Brain-Gut Axis and Autoimmunity, Pain and Inflammation, Basal Ganglia Disorders, Dementia and Alzheimer's.

Dr. Berry's expertise stems from a deep personal interest to find ways that would help him treat these conditions and improve the lives of his patients. He will take you through a patient's health history and documentation with special attention to these conditions and his treatment recommendations. He will bring together the big picture on how the central nervous system affects the many health ailments we suffer from. Come receive advanced training by and education from one of the foremost experts in the world in this field.

About Trevor Berry, DC, DACNB

Dr. Berry was born and raised in Alberta, Canada. He completed his pre-medicine requisites at the University of Calgary and went on to complete his Doctorate at Parker University in Dallas, Texas. He graduated Magna Cum Laude, Salutatorian and was the recipient of many academic awards including the Parker Scholastic Excellence Award. He went on to become a board-certified Chiropractic Neurologist in 2001 and has over 2500 hours in post-doctoral studies in neurology, functional medicine and low-level laser therapy. He is involved in multiple laser studies and has been the principle investigator on Level I FDA studies. Dr. Berry lectures for BTB Health Systems, nutrition companies, lab companies and about low-level laser. Because lasers profoundly influenced his own health status, Dr. Berry has dedicated himself to bringing the innovative laser applications to the health care system.

Seminar Cost \$125*
