

Varidi is the leading Revenue Acceleration Platform (RXP)
for professional service providers.

Our comprehensive suite of services is designed to
drive revenue and capture lost opportunities.

Realize...

Allows your business to provide **guaranteed payment plans** for clients who don't otherwise have the ability to pay the entire balance up-front, at the time of service.

Payment Guarantee.

When your customer can't pay, Varidi will make the payment for them.

100% Approval. All applicants are approved for a minimum Payment Guarantee of \$1,500.

Create Additional Revenue.

Flexible payment plans give customers access to services they want now, but might otherwise defer.

ReConnect...

Will increase your revenue by capturing lost business opportunities. At least **40%** of proposed services go unscheduled. Let Varidi assist in returning those clients back to you, for the services they desire.

ReConnect with Clients.

When customers walk out the door, what do you do to bring them back?

Save Time & Money.

Focus on what you do best, so that Varidi can bring you more business.

Enhance Sales & Marketing.

Our uniquely tailored marketing solutions are designed to entice your clients with payment options.

Resolve...

Manages your past due accounts. Whether you have one or *several* delinquent accounts, this feature can help your business reduce bad debt, recover as much money as possible, and keep the process fast and easy.

Recover More. Stop repeatedly sending out statements and start sending out solutions.

Protect Relationships. Why not provide your clients with options, instead of sending them to the wolves?

Collect More. Varidi returns 100% of what is recovered. Your traditional collection agency retains 35-50% for themselves.
