About the Seminar

This NEW seminar is for clinicians who want to continue to be the structural and neurological correction expert. Take your current skills as a clinician and become a PerformancePractor™. Laser Integrated Therapy (L.I.T.) will teach each clinician and/or performance specialist the importance to excel in "active" examination procedures to enhance the typical table examination and treatment methods used by all clinicians. Dr. Jerome will teach solutions to correct and optimize beyond the concept of ideal neutral posture and to graduate to optimum movement, function (flexibility, strength, balance and agility) and performance patterns. Dr. Jerome will demonstrate how to maximize the adjustment, laser therapy, percussion and soft tissue correction more than ever before. Take your practice to the next level by training with a 20-year veteran of hands-on laser experience in a full-time, referral-based clinic.

About the Speaker

Jerome Rerucha D.C., B.S., C.S.C.S., C.H.P.S. is a practicing clinician and international speaker teaching integration of advanced clinical treatment applications and competitive strength and conditioning principles. Prior to clinical practice he was a full-time strength coach, competed in powerlifting for 14 years and won a Lifetime Drug Free World Title and Best Lifter Award in 1999. Having the personal competitive lifting experience, coaching numerous types of athletes and elite strength athletes provides additional benefits when teaching his dynamic clinical applications.
