

GET BACK IN THE GAME

Simple and Quick Laser Techniques to Get Weekend Warriors, Youth, and Elite Athletes Back from Injuries & Enhance Sports Performance

Presented by Kirk Gair, DC, I.D.E.

Co-Sponsored by:

Northwestern Health
Sciences University

ERCHONIA
World Leaders in Low Level Laser Technology

Seminar Topics: Focus

- How lasers are not “experimental and new”, but supported by decades of research for multiple conditions
- How adding lasers can help you differentiate yourself from the other doctors around you
- How to corner the youth sports market in your area
- Hands on techniques to quickly and easily RE-CALIBRATE the nervous system to create an instant change in function.
- Instrument adjusting techniques to combine with your laser techniques for an even greater effect.

The history of light phototherapy

How adding lasers can help differentiate your office from the other practices in your area

Lab technique. Knowing which blood tests are important to have and how to interpret them for optimal injury recovery and sports performance

Traumatic Brain Injuries and Neurodegeneration

Protocol Workshop

- Balance assessment
- Eye movement assessment
- Functional Assessments: math processing, word processing, memory
- Laser protocols

Fat loss protocols and how this can have a global effect on your patient's health

- FDA cleared Non-Invasive laser treatment for non-invasive fat loss
- Research studies that can help with fat reduction

Lumbar spine and Lower Extremity Injuries

- How to Recalibrate and Reset the nervous system to accelerate recovery and enhance performance
- Protocol Workshop

How to Explain Laser Photobiomodulation to your patients

GET BACK IN THE GAME

About the Seminar

Most doctors do not fully understand what their lasers do, are unaware of the immense volume of research that supports their uses, and they lack confidence in talking to patients about how lasers can help them get to their health goals faster than other modalities.

Even worse, they struggle to explain how their lasers can help their patient's condition, have no idea what to charge, and usually give the service away. This seminar will teach the doctors the incredible volume of research behind their lasers that supports many uses in practice that will set them apart from their competition. It will also give doctors the tools to help insulate them from the threats of diminished insurance reimbursements, delayed personal injury payouts, and competition from low cost marketing groups and membership franchises.

About Kirk Gair, DC, I.D. E

Dr Kirk Gair has been in private practice since 1999 and began using Erchonia low-level lasers in 2004. During that time, he has worked with athletes of all levels, including Super Bowl Champions, MLB and national and state champions. Due to his laser protocols, he has patients come from all over the U.S. for help. Even though his is a 100% referral practice, he has a long waiting list due to his success.

Dr. Gair has also completed additional training in functional medicine and functional neurology under the guidance of internationally acclaimed Dr. Datis Kharrazian. He appeared in Dr. Izabella Wentz's documentary, The Thyroid Secret. Dr. Gair has also written articles for the Hypothyroid Mom website, which has over 1 million followers and has been featured on podcasts by Thyroid Nation, Rebel Health Tribe, and The Thyroid Pharmacist, Dr. Izabella Wentz. For more information on Dr. Gair, please visit www.erschonia.com/Seminars.

Seminar Cost: \$75*

If you need hours for other states, please contact NWHSU before the seminar at 952-885-5446. Certain restrictions apply. *\$75 extra for CEs (if needed). Not all states covered. CE Hours are applied for by NWHSU to the chiropractic state licensing boards. Transcripts are sent out three times per year (May, September and January).
