MASTERY

Presented by: Dr. Robert Silverman

About the Seminar

Dr. Robert Silverman, the doctor's chiropractic doctor and laser therapy expert, leads you through an innovative demonstration showcasing the power of performance nutrition and conservative therapies on health and movement patterns. Utilizing interactive how-to's, he demonstrates an integrative approach to improved performance and recovery through an enhanced diet and accurate supplementation, laser therapy, functional movement assessment, corrective exercises and more.

To truly improve a patient's health and optimize active lifestyles, we need to understand how systems interact with one another. Dr. Silverman discusses the gut-to-brain axis, with special emphasis on understanding Alzheimer's and treating concussions for faster recovery. Dr. Silverman will also provide a 10-page, take-home algorithm explaining laser therapy and its application during the correlated stages of healing.
