About Seminar

Join laser expert Dr. Jerome Rerucha to receive advanced treatment knowledge and detailed research trends for his NEW course. Dr. Rerucha's passion for performance will teach each clinician and/or performance specialist the importance to excel in "active" examination procedures to enhance the typical table examination and treatment methods used by all clinicians that only a doctor with over 20 years of hands-on laser experience in a full-time, referral-based clinic can provide. You will gain the experience you need to not only add laser therapy to your practice, but to truly optimize this proven technology. This seminar will focus on how to overcome the pain and opioid crisis and move beyond to maximize performance for all Dr. Jerome's clinically tested proven methods, hands-on protocols and rehabilitation techniques.

Seminar Cost: \$99*
