

Seminar

Topics

- Intro to basic laser & physiology of photobiomodulation
- Understanding dysfunctional mitochondria, increased oxidative stress & accelerated aging
- LLLT's role in improving the function of mitochondria
- Basic evaluation, anatomy & neurology of laser applications for FDA Market Clearances
- Understanding neuroinflammatory cascades, gliosis and cognitive decline
- LLLT applications to downregulate NF Kappa Beta & other epigenetic riggers of neurodegeneration
- Strategies & protocols to support the brain
- FDA market cleared non-invasive laser treatment for fat loss

Laser treatment, demonstration & workshops for:

- Low back pain
- Plantar fasciitis, chronic heel & foot pain
- Violet laser
- Chronic neck pain
- Shoulder pain

World Leaders in Low Level Laser Technology

About Seminar

FREE
SEMINAR

*Does not include cost of CE's

This course is designed to educate healthcare providers on the current health challenges many patients are presenting with on a daily basis. The main topics will be current epidemics of chronic pain, metabolic syndrome, autoimmunity, brain inflammation and cognitive decline. Dr. Andre Camelli will introduce low-level laser technology (LLLT) or photobiomodulation as a very effective core technology to add to your practice. Lasers will be the cornerstone of many treatment protocols covered. Dr. Camelli will take a close look at mitochondrial dysfunction, systemic inflammation, and chronic pain syndromes and recommend practical applications of LLLT for improving overall quality of life. Combining LLLT with the appropriate lifestyle modifications improves the underlying major issues of dysfunction effecting mitochondrial enhancement and reduction of systemic inflammatory conditions. Attendees will receive common threads, **"Dr. Camelli's Core Strategies"**, of most health challenges their patients are currently presenting upon office visits.

Seminar Cost: \$FREE*

*Credit card required to hold spot. If attendee no-shows, \$50 will be charged to the card on file.

*Northwestern Health Sciences University (NWHUSU) applies for CE Hours to the chiropractic state licensing boards in states surrounding the seminar location. If you need hours for other states, please contact NWHUSU before the seminar at 952-885-5446. Certain restrictions apply. *\$150 extra for CEs (if needed). Transcripts are sent out by email approximately 2 months after seminar completion. If you need a copy sooner, please contact NWHUSU directly at (952) 885-5446.

Dr.
Andre Camelli,
DC

Dr. Andre Camelli, a May of 2000 graduate of Parker College of Chiropractic, owns and operates Life Quest Wellness Center in Cortland, Ohio, since its opening in 2001. At his practice, Dr. Camelli is dedicated to improving the quality of life of his patients by dramatically reducing the devastating effects of stress and subluxations. Dr. Camelli strives to empower each patient to be able to make informed decisions that will keep them and their families healthy. As a best-selling author, Dr. Camelli believes that educating people will not only help them feel better but will enable them to keep themselves healthy their entire lives.
