

Seminar

Topics

Doctors in this seminar will be taught how to replicate the waiting list practice that I have created that is fun and highly effective. Topics covered will include:

- How lasers are not "experimental and new", but supported by decades of research for multiple conditions.
- How adding lasers can help you differentiate yourself from the other doctors around you, which helps you have better tools to succeed in the face of greater competition.
- How to corner the youth sports market in your area and become the go to doctor for local teams, ranging from youth sports to high school, college, and even pro.
- Step by step, hands on laser techniques to quickly and easily RE-CALIBRATE the nervous system to create an instant change in function. This technique is what really gets the patients excitedly telling all their friends and raving about you on social media.
- Instrument adjusting techniques to combine with your laser techniques for an even greater effect.

The history of light phototherapy, where it has come, and where the research is going, and how it impacts injury recovery.

How adding laser photobiomodulation can help differentiate your office from the other practices that are in your area.

Lab technique. Knowing which blood tests are important to have. How to interpret them for optimal injury recovery and sports performance.

Traumatic Brain Injuries and Neurodegeneration.

Protocol Workshop

- Balance assessment
- Eye movement assessment
- Functional assessments: math processing, word processing, memory
- Laser protocols

Weight loss protocols and how this can have a global effect on your patient's health.

NEXT GEN PRACTICE

Efficient Modern Methods for Today's World

Kirk Gair, D.C., I.D. E. is inviting you!

For seminar registration, call (888) 242-0571 Toll Free
or go online to www.erschonia.com/seminars.

Co-Sponsored by:

Live Stream Available!

About Seminar

Most doctors do not fully understand what their lasers do and are unaware of the immense volume of research that supports their uses. They lack confidence in talking to patients about how lasers can help them get to their health goals faster than other modalities. Even worse, they struggle to explain how their lasers can help their patient's condition, have no idea what to charge and usually give the service away.

This seminar will not only teach the doctors the incredible volume of research behind their lasers that support use in practice, but also sets them apart from their competition. An inspiring, protocol driven seminar providing demonstrations doctors will be able to implement on Monday morning and greatly enhance their results is Dr. Gair's goal. Having specialized in non-thermal laser technology for over a decade after seeing 1st hand successes on old football injuries, Dr. Gair's applications of instrument adjusting techniques combined with laser techniques to recalibrate and reset the nervous deliver an even greater effect to accelerate recovery and enhance performance.

Seminar Cost: \$199*

States Applied for CEs: ID, WA, OR, NV, UT, WY, MT (Live)

ID, WA, OR, NV, UT, WY, MT, AL, AK, AR, CA, CO, CT, DE, DC, FL, GA, HI, ID, IA, ME, MD, MA, MI, MN, NE, NV, NJ, NC, ND, OH, RI, SC, SD, TN, TX, VT, VA, WA, WY (Webinar)

DC Canadian Provinces Applied for: AB, BC, MB, NB, NF, NS, ON, PI, QB, SK (Webinar)

NCCAOM Applied (Live & Webinar)

Dr. Kirk Gair has been in private practice since 1999 and began using Erchonia low-level lasers in 2004.

During that time, he has worked with athletes of all levels, including Super Bowl Champions, MLB and national and state champions. Due to his laser protocols, he has patients come from all over the U.S.

for help. Even though his is a 100% referral practice, he has a long waiting list due to his success.

Dr. Gair has also completed additional training in functional medicine and functional neurology under the guidance of internationally acclaimed Dr. Datis Kharrazian. For more information, please visit www.Erchonia.com.

***Northwestern Health Sciences University (NWSU) applies for CE Hours to the chiropractic state licensing boards in states surrounding the seminar location. If you need hours for other states, please contact NWSU before the seminar at 952-885-5446. Certain restrictions apply. * \$65 extra for CEs (if needed). Transcripts are sent out by email approximately 2 months after seminar completion. If you need a copy sooner, please contact NWSU directly at (952) 885-5446.**

For live stream attendance, you will receive a secure link to join the virtual classroom. This link cannot be shared. Attendees will be able to engage & send questions through the chat to the instructors. You must be logged into the webinar the whole time and respond to most of the polling questions to get full credit. If you miss a question or two don't worry, it's only a problem if none of the questions are answered.

VERY IMPORTANT: Attendance at the in-person seminar will be monitored by a course chairperson who will require registrants to check in and out at the beginning and end of class.

***Every attempt is made to offer these seminars as publicized, however Erchonia Seminars reserves the right to adjust seminar locations, dates, time, speakers, content, etc., due to circumstances beyond control. No audio or video or tape recorders are allowed and no portion of the seminar may be reproduced in any manner without expressed consent. Preregistration is required. Erchonia Seminars cannot be held responsible for any expenses incurred by registrants if a program must be altered or canceled. Seminar fee is non refundable. If unable to attend, seminar fee will be transferred to another seminar. ©2020 Erchonia Corporation. All rights reserved.**
