

# Seminar

## Topics

Doctors in this seminar will be taught how to replicate the waiting list practice that I have created that is fun and highly effective. Topics covered will include:

### How to Efficiently & Effectively Evaluate a Patient

- What to look for that may be subtle but can have a big impact on your patient.
- How to use your laser to objectively improve the findings quickly

### Cervical and Upper Extremities

- Research studies on cervical spine, shoulder injuries, elbow, and carpal tunnel and laser photobiomodulation
- Case studies from Dr Gair's Patients

### Concussion & Brain Support Protocols

- How to use the lasers to enhance sports performance by improving muscle strength, range of motion

### Sports Performance Enhancement

#### Workshops for the Following:

Cervical/Shoulder

Elbow/Wrist/Hand

Lumbar

Quads/Hamstrings/Calves

Knee Injuries/Ankle/Foot

Scar Tissue

- Case Studies and Research

- Evaluation of range of motion, dynamic movements, muscle strength and tissue texture

- Using the laser to improve each plane of movement and muscle strength

- Techniques for injuries ranging from an acute strain to chronic injuries with scar tissue

- Percussor and Adjustor techniques that can be stacked with the laser while it is in a stand or with unattended lasers

**SPECIAL  
OFFER**

*This course includes a **FREE**  
2-hour **Laser Science**  
Online Tutorial by Dr. Kirk Gair.\*\**

*See back for details*

Join us:

**Sheraton Portland  
Airport Hotel**  
8235 NE Airport Way  
Portland, OR 97220  
Phone: (503) 281-2500

Social Distancing in the Meeting Room  
\*Hotel subject to change due to  
Covid-19

**Registration at 8:30am  
Sat 9:00-4:00pm**

**6 CE's are Applied**

UNIVERSITY

 **ERCHONIA**  
World Leaders in Low Level Laser Technology

# About Seminar

---

Most doctors do not fully understand what their lasers do and are unaware of the immense volume of research that supports their uses. They lack confidence in talking to patients about how lasers can help them get to their health goals faster than other modalities. Even worse, they struggle to explain how their lasers can help their patient's condition, have no idea what to charge and usually give the service away.

This seminar will not only teach the doctors the incredible volume of research behind their lasers that support use in practice, but also sets them apart from their competition. An inspiring, protocol driven seminar providing demonstrations doctors will be able to implement on Monday morning and greatly enhance their results is Dr. Gair's goal. Having specialized in non-thermal laser technology for over a decade after seeing 1st hand successes on old football injuries, Dr. Gair's applications of instrument adjusting techniques combined with laser techniques to recalibrate and reset the nervous deliver an even greater effect to accelerate recovery and enhance performance.

## Seminar Cost: \$64\*

\*Northwestern Health Sciences University (NWSU) applies for CE Hours to the chiropractic state licensing boards in states surrounding the seminar location. If you need hours for other states, please contact NWSU before the seminar at 952-885-5446. Certain restrictions apply. \*\$65 extra for CEs (if needed). Transcripts are sent out by email approximately 2 months after seminar completion. If you need a copy sooner, please contact NWSU directly at (952) 885-5446.

## \*2-Hour Laser Science Online Tutorial

\*\*Get Back in the Game 2-Hour Laser Science Online Tutorial will be provided to the attendee before the seminar. To ensure this course provides attendees with ample benefit, it must be watched before the seminar. If CEs are needed, Erchonia will provide directions to access through ChiroCredit.

**Dr. Kirk  
Gair,**

D.C., I.D.E

---

Dr Kirk Gair has been in private practice since 1999 and began using Erchonia low-level lasers in 2004. During that time, he has worked with athletes of all levels, including Super Bowl Champions, MLB and national and state champions. Due to his laser protocols, he has patients come from all over the U.S. for help. Even though his is a 100% referral practice, he has a long waiting list due to his success. Dr. Gair has also completed additional training in functional medicine and functional neurology under the guidance of internationally acclaimed Dr. Datis Kharrazian. For more information, please visit [www.Erchonia.com](http://www.Erchonia.com).
