About Seminar

Dr. Robert Silverman, leads you through a demonstration showcasing 35 advanced clinical success protocols. He will show you how to maximize the efficacy of leading-edge laser therapy technology. He conveys to all experience levels how this hands-on approach leads to improved performance and recovery. This is also achieved following his enhanced and accurate supplementation protocols, treatment assessments, corrective exercises, and more.

To truly improve a patient's health and optimize active lifestyles, we need to understand how systems interact with one another. The gut-to-brain axis will be discussed, emphasizing understanding Alzheimer's and treating concussion for faster recovery. Dr. Silverman will also provide a 10-page, take-home algorithm explaining laser therapy and its application during the correlated healing stages.
