

# Seminar

## Topics

Doctors in this seminar will be taught how to replicate the waiting list practice that I have created that is fun and highly effective. Topics covered will include:

- How lasers are not "experimental and new", but supported by decades of research for multiple conditions.
- How adding lasers can help you differentiate yourself from the other doctors around you, which helps you have better tools to succeed in the face of greater competition.
- How to corner the youth sports market in your area and become the go to doctor for local teams, ranging from youth sports to high school, college, and even pro.
- Step by step, hands on laser techniques to quickly and easily RE-CALIBRATE the nervous system to create an instant change in function. This technique is what really gets the patients excitedly telling all their friends and raving about you on social media.
- Instrument adjusting techniques to combine with your laser techniques for an even greater effect.

The history of light phototherapy, where it has come, and where the research is going, and how it impacts injury recovery.

How adding laser photobiomodulation can help differentiate your office from the other practices that are in your area.

Lab technique. Knowing which blood tests are important to have. How to interpret them for optimal injury recovery and sports performance.

Traumatic Brain Injuries and Neurodegeneration.

### Protocol Workshop

- Balance assessment
- Eye movement assessment
- Functional assessments: math processing, word processing, memory
- Laser protocols

Weight loss protocols and how this can have a global effect on your patient's health.

**SPECIAL  
OFFER**

*This course includes a FREE  
2-hour **Laser Science**  
Online Tutorial by Dr. Kirk Gair.\*\**

*See back for details*

Join us:

**Temecula Creek Inn**  
44501 Rainbow Canyon Rd.  
Temecula, CA 92592  
Phone: (866) 448-3612

\*Social Distancing in the Meeting Room  
Hotel subject to change due Covid-19

Registration at 7:30am  
Sat 8:00am - 5:30pm

8 CE's are Applied  
See back for states

# NEXT GEN PRACTICE

## Efficient Modern Methods for Today's World

Kirk Gair, D.C., I.D. E. is inviting you!

For seminar registration, call (888) 242-0571 Toll Free  
or go online to [www.erschonia.com/seminars](http://www.erschonia.com/seminars).

Co-Sponsored by: NORTHWESTERN HEALTH SCIENCES  
UNIVERSITY

# About Seminar

---

Most doctors do not fully understand what their lasers do and are unaware of the immense volume of research that supports their uses. They lack confidence in talking to patients about how lasers can help them get to their health goals faster than other modalities. Even worse, they struggle to explain how their lasers can help their patient's condition, have no idea what to charge and usually give the service away.

This seminar will not only teach the doctors the incredible volume of research behind their lasers that support use in practice, but also sets them apart from their competition. An inspiring, protocol driven seminar providing demonstrations doctors will be able to implement on Monday morning and greatly enhance their results is Dr. Gair's goal. Having specialized in non-thermal laser technology for over a decade after seeing 1st hand successes on old football injuries, Dr. Gair's applications of instrument adjusting techniques combined with laser techniques to recalibrate and reset the nervous deliver an even greater effect to accelerate recovery and enhance performance.

## Seminar Cost: \$64\*

\*Northwestern Health Sciences University (NWHU) applies for CE Hours to the chiropractic state licensing boards in states surrounding the seminar location. If you need hours for other states, please contact NWHU before the seminar at 952-885-5446. Certain restrictions apply. \*\$65 extra for CEs (if needed). Transcripts are sent out by email approximately 2 months after seminar completion. If you need a copy sooner, please contact NWHU directly at (952) 885-5446.

## 2-Hour Laser Science Online Tutorial

\*\*Next Gen Practice 2-Hour Laser Science Online Tutorial will be provided to the attendee before the seminar. To ensure this course provides attendees with ample benefit, it must be watched before the seminar. If CEs are needed, Erchonia will provide directions to access through OnlineCE.

**Kirk  
Gair,**  
D.C., I.D.E

---

Dr. Kirk Gair has been in private practice since 1999 and began using Erchonia low-level lasers in 2004. During that time, he has worked with athletes of all levels, including Super Bowl Champions, MLB and national and state champions. Due to his laser protocols, he has patients come from all over the U.S. for help. Even though his is a 100% referral practice, he has a long waiting list due to his success. Dr. Gair has also completed additional training in functional medicine and functional neurology under the guidance of internationally acclaimed Dr. Datis Kharrazian. For more information, please visit [www.Erchonia.com](http://www.Erchonia.com).
