

# The Gut Brain Connection

**A Comprehensive Approach to Diagnostics, Intervention & Prevention**

**Presented by Dr. Robert Silverman, DC, MS, DABCN, DCBCN**  
MS, CCN, CNS, CSCS, CIISN, CKTP, CES, HKC, FAKTR

Dr. Robert Silverman, the doctor's chiropractic doctor and laser therapy expert, leads you through the latest developments in a comprehensive approach to treatment. You'll learn the value of laser therapy as a stand-alone modality or a synergistic treatment that fits perfectly into your armamentarium. Dr. Silverman presents integrative approaches to performance nutrition, essential supplementation, improving immune function, functional assessments, current options for blood testing, and other new protocols that will help you attain superior clinical outcomes.

This seminar explores the bidirectional gut-brain axis. You'll learn practical applications for patients with concussion, Alzheimer's disease, SIBO, Lyme disease, and the newly emerging clinical problem of long COVID.

Join Dr. Silverman in this illuminating seminar and gain insight into a comprehensive methodology that incorporates proven protocols into a clinically integrated system—one you can apply to your practice immediately.

**SEPTEMBER 24<sup>TH</sup>-25<sup>TH</sup>, 2022**

## ABOUT DR. ROBERT SILVERMAN, DC, MS, DABCN,

Dr. Robert G. Silverman is a chiropractic doctor, clinical nutritionist, international speaker, and author of "Inside-Out Health: A Revolutionary Approach to Your Body," an Amazon No. 1 bestseller in 2016. The ACA Sports Council named Dr. Silverman "Sports Chiropractor of the Year" in 2015. His extensive list of educational accomplishments includes six different degrees in clinical nutrition. Dr. Silverman also maintains a busy private practice as the founder of Westchester Integrative Health Center, specializing in treating joint pain using functional nutrition, low-level laser therapy, and other cutting-edge, science-based, nonsurgical approaches.

Dr. Silverman is on the advisory board for the Functional Medicine University and is a seasoned health and wellness expert on both the speaking circuits and within the media and a frequent health expert contributor on national blogs such as Consumer Health Digest, NewsMax.com. He has appeared on FOX News Channel, FOX&Friends, NBC, CBS, and The Wall Street Journal Live, to name a few.

He was invited as a guest speaker on "Talks at Google" to discuss his current book. As a frequently published author in peer-reviewed journals and other mainstream publications, including Thrive Global, Integrative Practitioner, MindBodyGreen, Health Radar, Muscle and Fitness, The Original Internist, and Holistic Primary Care journals, Dr. Silverman is a thought leader in his field and practice.

**Dr. Silverman was the principal investigator on a Level 1 laser FDA study.**

## SEMINAR TOPICS

- Laser Introduction – the Evolution of Laser & its Modern Usage
- Clinical Breakthroughs in the Treatment of Musculoskeletal Injuries & Hands-On Laser Demo
- Functional Medicine & Immunity in Novel Times
- Strategies to Initiate the Positive Impact of Gut Health on the Musculoskeletal System
- SIBO – Small Intestinal Bacteria Overgrowth
- Blood Chemistry as an Effective Diagnostic Tool to Screen for and Identify Metabolic Imbalances.
- Cardiometabolic Disorders: Untangling Complex Conditions
- Hands-on and laser workshop (includes a 10-page, take-home algorithm)
- Neurodynamic Tests
- Traumatic Brain Injuries/Concussions/Brain Health
- Hands-on demonstration of rehab and cognitive assessments/treatment for concussion injuries
- Nutritional Protocol for Treating Concussion | Nutritional protocols for Alzheimer's/Neurodegenerative Disease
- Practical Clinical Applications for Enhancement of (Brain-Body) Neuroplasticity
- A Functional Approach to the Blood-Brain Barrier in Health and Trauma

### Key clinical takeaways:

- Test Don't Guess: expertly assess intestinal and blood-brain dysfunctions, inclusive of advanced diagnostic laboratory testing and blood chemistry analysis
- Understand the effect of gut bacterial toxins on the gut-brain axis in neurological disorder pathogenesis, with a focus on SIBO
- Strategies to initiate the positive impact of gut health on the musculoskeletal system
- Traumatic brain injuries & neurodegenerative diseases: assessment & intervention
- Diminished brain resilience syndrome: toxins, diet, lifestyle
- Nutritional protocols for immunity
- Apply neurodynamic tests and corrective laser protocols
- Demonstrations of laser applications and case studies

### Attendees will receive:

- Clinical protocols and pearls based on case studies
- An up-to-date syllabus with graphics and take-home notes
- An information-packed day guaranteed to expand your clinical knowledge
- Doctor laser flowcharts and nutritional protocols
