“

This is it! No pain, no down time, no invasive procedures and amazing results. I can do this on my lunch or on any day take an hour for myself and relax. I've gone through two treatment plans and I've lost over 18". Also I've noticed my skin is smoother and tighter. **Absolutely love the Emerald!**

HOW DOES IT WORK?

The treatments are straightforward and cause no side effects and you feel virtually nothing. Your Emerald provider will have you lie on a comfortable table on your back. Ten lasers will be applied to target areas of fat simultaneously for approximately 15 minutes. You'll then lie on your front, where the process will be repeated. By undergoing this **30-minute procedure as few as 8 times, you can see quality results in fat loss and contour.**

Clinically Proven with the highest standard of clinical testing by the FDA
