Erchonia FX Series

Discover the fast, painless way to relieve the pain and inflammation of the heel associated with Plantar Fasciitis.

FX Series provides individuals experiencing chronic heel pain with a non-invasive, efficacious solution to quickly improve their walking comfort and quality of life without surgery.

While other lasers may claim to treat this problem, only the FX Series has been market cleared by the FDA to treat Plantar Fasciitis.

The healing powers of this low level laser technology can reduce inflammation and eliminate pain in the plantar fascia in a matter of weeks and return you to an active life once again.

See in Action!
