Try Non-invasive fat loss FREE

THE NEWEST TREATMENT FOR  
non-invasive fat loss

EMERALD LASER™ is the only low level laser in the world that has been given FDA market clearance for overall body circumference reduction in patients with small pockets of fat, to individuals with a BMI up to 40.

The laser works as a natural alternative for fat loss by using low level lasers to create a temporary pore in the fat cells, allowing the fatty liquids to seep out of the cell and be naturally flushed out through your lymphatic system.

amazing results

TRY OUR NEWEST NON-INVASIVE FAT LOSS TECHNOLOGY

**When:**

**Where:**

**Time:**

Most clients who undergo the Emerald™ process focus on their waist, thighs and hips, but it can also be used on other problem areas such as the arms, neck, ankles, chest and back due to its clearance to treat the overall body.

The treatment is straight forward with no side-effects. Your Emerald™ provider will have you lie on a table for approx. 30 minutes, while 10 lasers are applied to the target areas of fat simultaneously. by undergoing this treatment as few as 8 times you can see dramatic fat loss results.
