ERCHONIA
World Leaders in Low Level Laser Technology

THE WHY

THE IMPORTANCE OF FX SERIES VS OPIOIDS

FX SERIES

OPIOIDS

- ✓ Targets the root of the problem unlike opioids which suppress it
- ✓ Proven safe & effective
- ✓ Targets inflammation
- ✓ The first & ONLY laser in the world to be given FDA market clearance for the treatment of chronic low back pain
- ✓ The Avg. patient treated had a **58%** reduction in their chronic low back pain

THE RESULT OF LOW LEVEL LASER.

Patients who received the FX Series treatment had a 42% decrease in pain after treatment. One month after treatment, patients experienced a 53% decrease in pain and after 2 months post treatment, patients had a 58% decrease. This was a cumulative effect which continued to decrease patient's pain.

- Two thirds said their OTC medications were not effective, and 52% of those taking prescription medications said they were not effective
- <http://chronicpainaware.org/pain-101/pain-survey-results>
- Nearly half of Americans have a family member or close friend who's been addicted to drugs
- www.pewresearch.org
- Overdoses involving opioids killed more than 42,000 people in 2016. 40% of those deaths were from prescription opioids
- *CDC*
- Opioids now kill more people than breast cancer
- *CNN*

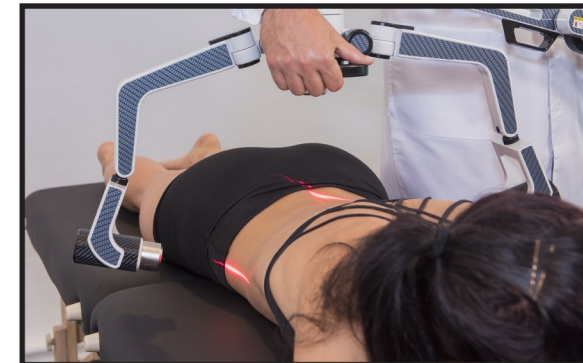

WHAT THE EXPERTS HAVE TO SAY.

Experts say the United States is in the throes of an opioid epidemic, as more than two million Americans have become dependent on or abuse prescription pain pills and street drugs.

BREAK DOWN

THE DETAILS

The FX Laser Series by Erchonia provides patients experiencing chronic low back pain with a new treatment option. This non-invasive, pain-free, efficacious solution targets low back pain and improves quality of life without surgery. The FX Series is the only FDA Market Cleared Lasers to provide relief for chronic low back pain of musculoskeletal origin. The healing powers of this low-level laser technology can return you to an active life once again, without pain or the long-term effects of pain medication.

THE QUICK RUN-DOWN

The FX Laser Series offers non-invasive lasers that conjointly rotate to target the pain area to relieve chronic low back pain. You just relax and let the FX do the rest. The FX low back pain treatment consists of (8) 20-minute treatments administered (2) times per week for 4 weeks.

Your chronic pain could be gone in just weeks.

Tell your doctor the FX Series is right for you.
