

Results at a Price You'll Love

As a liposuction alternative, ZERONA®Z6 allows patients to cash in on the results of a top dollar liposuction procedure without the price tag. With targeted treatments on unwanted fat areas, patients have reported up to 3.5 inches of fat reduction within a few weeks of starting their regimen.

Its impactful results happen through a gentle process of shrinking the fat cells and safely disposing of the fatty liquids through the body's natural lymphatic system. And that's why it has been continuously rated #1 for best in class performance at reducing overall body circumference. **What's not to love?**
