FX 635

Chronic Low Back Pain

Chronic pain affects more Americans than diabetes, heart disease and cancer combined. 50% of all working Americans admit to having back pain symptoms every year. In fact, back pain is one of the most common reason for missed work. It is also the second most common reason for people to consult their physician. It has been estimated that Americans spend as much as \$50 billion each year in search of relief to back pain. Discover how the FX 635 can provided lasting relief to your patients who deal with lower back pain.

- **No Harmful Side-Effects**
- **Unattended Treatments**
- **Reduces Inflammation**

Product Description

Discover the only laser on the market for the treatment of chronic low back pain. Our new FDA market cleared laser has been proven in double-blind, placebo-controlled, randomized, parallel group, multi-center clinical trial to effectively treat this painful condition. The participants of the FX 635 Clinical Trial showed a 58% pain reduction at 2 month follow-up evaluation. This trial went on to demonstrate that the FX 635 is successful in the treatment of chronic low back pain. The recent clearance of the FX 635 is groundbreaking for the pain management community and the war on opioids.
