# JUST RELAX, AND BOUNCE BACK

with no pain, no needles, no downtime and no side-effects!

Verjú is a low-level laser used to target problematic areas of stored fat. Most clients who undergo the Verjú process focus on their waist, thighs and hips. The procedure is straightforward and causes no side effects. Your Verjú provider will have you lie on a comfortable table. Six lasers will be applied to target areas of fat simultaneously for approximately 40-minutes as few as 6 times. You can see quality results in fat loss in as little as 2 weeks!
