

SANDAL SEASON IS COMING!

With Lunula Laser, you can wear toe-bearing shoes all summer long without the fear of shame or judgment. As the first and only low level laser of its kind on the market, Lunula treatments stimulate healthy nail growth to battle the effects of onychomycosis. This non-invasive and pain-free option is safe and effective, making it a top choice for our clients.

- ✓ **Short, 12-minute sessions**
- ✓ **All 5 toes treated at once**
- ✓ **No needles, heat or freezing**

Start your treatment plan now and regain your confidence before summer rolls around!
