EVRL

DUAL

COMBINATION RED
& VIOLET LASERS

With unmatched precision and quicker results, the EVRL has transformed the way in which a wide range of dental providers treat their patients. By using a tandem approach with red and violet laser technology, tooth and jaw pain, and conditions such as TMJ can be addressed with one handheld device.

Dental Pain, Oral Post-Operative Pain, and other associated pain cannot stand up to the transformative power of EVRL.
