

OVERCOME ONYCHOMYCOSIS WITH LUNULA

Target the painful and unsightly views of toenail fungus

With four short 12-minute treatment sessions with the low-level Lunula Laser, patients will begin to reduce the suffering that comes with toenail fungus. This one-of-a-kind pain-free and non-invasive laser stimulates healthy nail growth without the need for antifungal medications. Plus! Patients can treat all five toes at once, and walk in and out of treatments with zero discomfort, removing the need for downtime.

89% OF PATIENTS EXPERIENCE MAJOR RESULTS!

The Benefits are Undeniable:

- ✓ Only non-thermal laser on the market
- ✓ FDA-cleared for safety and effectiveness
- ✓ 6mm of new, clear growth in 6 months

Toenail fungus doesn't stand a chance.
