

CLINICALLY PROVEN LASER THERAPY

In a randomized, double-blind, placebo-controlled clinical study, Erchonia EVRL-DPN delivered statistically significant and clinically meaningful improvements in patients with Diabetic Peripheral Neuropathy.

CLINICAL STUDY RESULTS

SIGNIFICANT REDUCTION IN FOOT PAIN

By Week 3, 72.7% of patients treated with the Erchonia EVRL-DPN Laser achieved at least a 30% reduction in foot pain, compared to 32.3% in the sham group.

AVERAGE PAIN REDUCTION OF 44%

By Week 3, patients treated with the Erchonia EVRL-DPN Laser achieved an average 44% reduction in foot pain.

RELIEF BEYOND TREATMENT

Pain reduction was maintained through the follow-up evaluation, conducted four weeks after the final treatment.

OVERALL IMPROVEMENT IN NEUROPATHIC PAIN

Treatment with the Erchonia EVRL-DPN Laser resulted in improvements across a range of neuropathic pain symptoms, including burning, pressing/squeezing, shooting, and tingling sensations.

STRONG PATIENT SATISFACTION

At Week 3, 72% of active-treated patients reported being very or somewhat satisfied with their treatment outcome. This increased to 75% at the follow-up evaluation.

FAVORABLE SAFETY PROFILE

No serious device or treatment-related adverse events were reported during the clinical study.

HOW EVRL-DPN LASER THERAPY WORKS

Our FDA-cleared laser therapy uses specific wavelengths of visible red and violet laser energy to penetrate deep into the tissues of the feet and support mitochondrial function at the cellular level.

1 LOW-LEVEL LASER ENERGY DELIVERED

Low-level laser energy is delivered to the treatment area.

2 STIMULATES MITOCHONDRIAL FUNCTION

Stimulates mitochondrial function at the cellular level.

3 RELIEF FROM NEUROPATHY-RELATED PAIN & SYMPTOMS

Patients may experience meaningful reductions in neuropathy-related pain and symptoms.

FDA-CLEARED FOR PRESCRIPTION AT-HOME USE
Safe. Effective. Clinically Proven.

WHY CHOOSE EVRL-DPN?

FDA-CLEARED & CLINICALLY PROVEN

Proven results in a randomized, double-blind, placebo-controlled clinical study.

CONVENIENT AT-HOME TREATMENT

Easy to use at home with a simple twice-daily treatment routine.

SAFE & NON-INVASIVE

No drugs. No surgery.
No known serious side effects.

CONVENIENT HANDS-FREE TREATMENT

Designed for easy, hands-free use while delivering low-level laser therapy as directed.
